

1977 Bryant Lightning masking template, 1/25 scale

Print this page out and use the markings below to cut your masking medium to insure a proper fit with the decals.

The top marks are 1 inch apart. When you print this template measure these marks to make sure they are 1 inch apart - otherwise this template will not fit the decals. If they are not 1 inch apart, adjust the scaling on your printer until they are 1 inch apart. Bottom marks are 1 cm apart.
